# Corruption, Social Sciences and the Law

Exploration across the disciplines

Edited by **Jane Ellis**

*Series: The Law of Financial Crime*

Corruption and anti-corruption are multifaceted and multi-disciplinary. It is very easy to focus on the law and compliance, and perhaps commercial incentives. However, to understand the phenomenon more comprehensively, practitioners require knowledge of not just the law, compliance and potentially economics but also anthropology, behavioural psychology, change management, governance, international development and sociology. With its interdisciplinary perspective, this book will be of value to researchers, academics, lawyers, legislators and students in the fields of law, anthropology, sociology, international affairs, and business.
