## MAIN RECOMMENDATIONS

- Clarify the criteria used for the definition of the price. Partially taken on board.
- When the selection criterion is the price, it is important to establish a second criterion to be applied in the case that two or more bidders offer the same price. The monitor recommended setting a lottery as the tie-breaking criterion. The recommendation was taken on board.

## WHAT'S NEXT?

- Communication and engagement activities to involve citizens in civic monitoring
- Publication of monitoring reports
