MONITORING REPORTS

DOWNLOAD
the first monitoring report at:
<https://pactedeintegritate.ro/ro/content/cadastru-zonele-rurale>

WHAT'S NEXT?

- Continue the monitoring of cadaster services in a sample of 7 villages
- Organisation of integrity trainings for staff in charge with services reception

MAIN RECOMMENDATIONS

- Organising a market consultation in order to better adapt the requirements to market capacity. The recommendation was made taken into consideration that the most important problem in the project implementation is the very small number of bidders participating to a large number of tenders. The recommendation has been taken on board, but with a significant delay (the recommendation was first put forward in 2018 and the market consultation started in January 2020).
- Organising integrity trainings for the staff in charge with services reception. This recommendation has been taken on board in February 2020 and trainings are planned for 2020.
