Basel AML Index

What?

An independent country ranking and risk assessment interface that assesses the risk of money laundering and terrorist financing (ML/TF) in countries around the world.

Who?

AML risk assessors, researchers, policymakers, compliance officers and others involved in due diligence and risk evaluation.

Why?

Provides a geographic risk assessment to complement other compliance risk assessments, such as sector, transaction, client profile and product type.

How?

A composite risk index based on data from 16 publicly available sources such as the Financial Action Task Force (FATF), Transparency International, the World Bank and the World Economic Forum.

It covers five key areas relevant to evaluating ML/TF risk:

Editions

Public Edition

An annual risk ranking covering 141 countries with sufficient data to calculate a reliable overall risk score.

A snapshot in time illustrating the global nature of ML/TF risks and progress by countries over time.

Expert Edition

Covers 203 countries and consists of an interactive map and ranking.

Country	Region	Income Category	Overall Score	ML/TF Risk	Sanctions Risk	Political Instability & Corruption	FATF Recommendations & AML/CFT Risk
