

Basel AML Index

Assessing money laundering risks around the world

Basel AML Index

What?

An independent ranking and risk assessment tool that helps users to evaluate money laundering and terrorist financing (ML/TF) threats around the world and the capacity of jurisdictions' AML/CFT measures to address their risks.

Who?

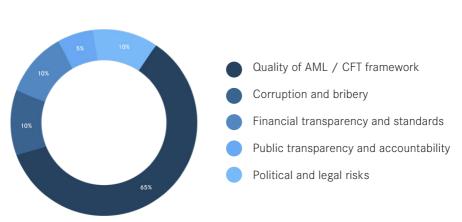

AML risk and compliance officers, investors, policymakers, public agencies, international organisations, researchers and the media.

Why?

To assess geographic ML/TF risks, benchmark in-house AML risk and compliance systems, and develop robust ML/TF risk assessment models.

How?

A composite risk index based on data from 18 publicly available sources such as the Financial Action Task Force (FATF), Transparency International, the World Bank and the World Economic Forum.

It covers five key areas relevant to evaluating $\rm ML\,/\,TF$ risk:

Editions

Public Edition

An annual risk ranking covering 128 jurisdictions with sufficient data to calculate a reliable overall risk score. A snapshot in time illustrating the global nature of ML/TF risks and progress by jurisdictions over time.

Expert Edition

Covers 203 jurisdictions and consists of an interactive map, ranking and jurisdiction profiles.
