

Basel STUDY

**Postgraduate programmes on anti-corruption and
asset recovery**

*Our next level
of learning*

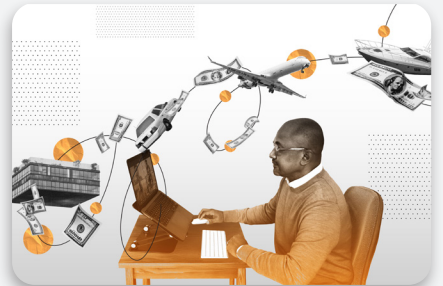

Corruption and financial crime undermine societies, from stalling economic growth to eroding public trust. Understanding their dynamics and how to fight them effectively is vital for professionals from any sector and corner of the world.

Our two certificate programmes with the University of Basel are designed to **boost the knowledge, skills and careers of professionals** who care about countering corruption and financial crime.

Mastering Today's Anti-Corruption Challenges

Develop a holistic understanding of how corruption impacts governance at every level. Equip yourself with the skills, tools and approaches to promote anti-corruption and integrity in your daily work.

Combating Financial Crime Through Asset Recovery

Sharpen your ability to identify, trace, seize and recover illicit funds. This is a vital skill to tackle organised and financial crimes, as well as implement sanctions.
