Illicit Financial Flows: Risks, Responsibility and Solutions

Illicit financial flows in commodity trading - and beyond - undermine entire economies and deprive developing countries of vital funds for sustainable development.

At the same time, reconstruction projects must fully address the risks posed by illicit flows and corruption.

This event examines these challenges and explores the responsibilities and practical options for stakeholders including development agencies, banks, financial service providers, and public authorities.

Thursday, 27 November 2025

5:30 pm, including aperitif

Braustube Schaan
Im alten Riet 156
